Why take this course?

Demand of AWS Architects

Today, cloud computing is no longer an optional factor but a critical one for the success of any bigger or even smaller scale enterprises on earth. Therefore, getting AWS training and certification means that you can open up doors to unlimited job chances that are offering highly competitive salaries.

According to Gartner, AWS is a number market leader in the Cloud Computing domain. According to Canalys, as of February 2020, AWS is holding 32.4% of the total market shares, leaving behind Azure, GCP and other cloud services.

More market shares mean a greater number of job opportunities.

According to Indeed, an AWS Architect can earn up to US \$130,000/annuum. So, this is the right time for you to get learn and get certified in AWS.

OPSWORK & CLI

8

CONFIGURATION
MANAGEMENT AND
AUTOMATING
SERVERS

Course Content

Prerequisites

Just a basic knowledge of any programming language will be beneficial.

Also, having a knowledge in Networking and Operating System, like Linux, would come in handy for you, but it won't be necessary, we will teach you during the session

Project

Industry oriented projects

Project: Elastic load balancing and its configuration.

Problem Statement: As the AWS Engineer of the company, you need to launch two web servers and configure a load balancer, then auto-scale it.

Industry: Internet

Topic: Load balancer

Project: Orchestrate a website

Problem Statement: First deploy a high-availability PHP application on Elastic Beanstalk, with lesser time and higher availability along with auto-scaling. The primary tasks would be launching a DB instance in Amazon RDS, creating an Elastic Beanstalk Environment, and configuring Security Groups.

Industry: Internet

Topic: Elastic Beanstalk

Project: Scaling a website without zero upfront cost using AWS

Problem Statement: Without any investment in hardware you need to launch virtual servers and configure their security, also manage storage.

Industry: Internet

Topic: EC2, RDS, traffic from EC2 to RDS

Reviews

"Great instructors"

"Eduranz has great instructors. I joined AWS Solutions Architect Certification class and learned concepts like EC2, Auto Scaling, EBS, S3, Glacier, VPC, Cloudwatch, etc. I would highly recommend this class for any AWS or Cloud enthusiast." - **Raja Velan (Regional Solution Manager - Huawei)**

<https://www.linkedin.com/in/raja-velan-793b211b/>

"Helped me in changing the job"

"The AWS Solutions Architect online Instructor-Led Training, which I took from Eduranz was interactive and also helped me to improve my knowledge on Cloud. Further helped me in changing the job as well. Thanks for providing a well-experienced trainer with very sound knowledge in all the concepts, Thanks Eduranz Team." - **Rahul Rajan (Project Manager - Nasma Telecommunications)**

<https://www.linkedin.com/in/rahulrajan/>

"Very good learning experience"

"The instructor was very good and prompt in responding to questions. Excellent virtual class experience. Good Work Eduranz!! - **Rajeev Kathuria (West Head-Partner Management - Samsung)**

<https://www.linkedin.com/in/rajeev-kathuria-818414a/>

"Enjoyed the training"

"I always enjoyed the training classes at eduranz!. The exciting part of the lectures was always the Q&A session at the end of the lecture where I got to hear some practical/real-world tips and directions from the instructor." - **Prashant Gera (Software Development Manager - Amazon USA)**

FAQs

What if I miss a Class?

No one misses any lecture at Eduranz, because you will be provided with the recorded sessions of the class on your LMS within 24 hours and despite that, you can also attend any different live session to cover up the missed topic and ask your doubts from the trainer.

What training modes are available for this AWS Architect certification course?

For AWS Architect certification course Eduranz is providing both live Online Classes and Self Paced Learning videos. With online class training, you can access courses via video conferencing from your desktop to increase productivity and reduce work time and personal time. Our online classes will be recorded so that you don't miss a single concept. With self paced videos you get to go through the complete course at your own pace, from our LMS.

Who are our instructors and how are they chosen?

All of our highly qualified trainers are industry experts with at least 10-12 years of relevant teaching experience. Each of them underwent a rigorous selection process that included screening profiles, technical assessments, and training demonstrations before being certified for training.

FAQs

How is the Eduranz Certified Certificate given?

After completing the training program along with mini-projects, tests, and assignments, you will be working on a real-world industry oriented capstone project. Upon completion of the project you will be awarded with an industry recognized certificate by Eduranz.

Can I request a support session if I want to understand the topic better?

Eduranz offers 24/7 customer query solution commitment. You just need to raise a query ticket at any time to our dedicated support team. You can use email support for all your questions as well. If your request is not answered via email, we can also arrange one-on-one discussions with our instructors. You will be glad to know that even after completing the program you can switch to Eduranz support. We don't limit the number of query tickets you can raise during the process.

Will the job support program guarantee me a job?

Our job assistance program will help you reach the job that you have been seeking. Under this support program, we help you by building your professional resume and then sharing it across our network companies that we have tie ups with. You will be prepared for interviews through mock sessions by instructors.

However, Eduranz is not a recruitment or job agency, we do not guarantee you a job. We share your profile with different companies, then entire process is handled by the company and the result is totally based on the their decision.
