ABOUT US

Our journey started in early 2018 when we realised upskilling and professional certification courses were cost-prohibitive to students as well as working professionals; so, we set forth with the mission to make quality certification courses affordable and accessible to all.

Since then, we are engrossed in developing, implementing, and innovating our unique learning model, by bringing industry experts and faculties together to produce quality learning programs in order to help thousands of working professionals achieve their career goals in latest technologies such as Cloud Computing, Data Science, Business Intelligence, and more.

Our Program Benefits

Learn From Experts

Learn from industry experts who bring best practices and projects from real-world experiences in their respective fields.

Lifetime LMS Access

Revisit the LMS even after course completion. You control your learning path. Upskill anytime, from anywhere.

Lifetime Up-gradation

Claim course up-gradation when there is an update in the certification, even after course completion. No need to invest extra penny

Projects & Hands-on

Industry-oriented capstone project for each course. Work on multiple projects and assignments on each module.

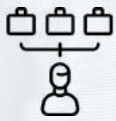

1:1 Mentor-ship

Identify best suited career opportunities for you. Get mock interview sessions. Learn salary negotiation skills.

Learner Delight Team

Get queries resolved by technical experts. Project discussion sessions as well as 24x7 support team at your service.

Attend Multiple Batches

Choose the classroom best suited for your needs. Take breaks if required, continue from where you left off earlier.

Get Certified

Eduranz certification, a well recognized certification in top 80+ MNCs, will be provided after course completion.

Affordable Price

Access great quality content without hurting your wallet. Our courses are structured and tailored for everyone wanting to up-skill.

“

Eduranz is a fast-growing education platform for anyone wanting to upskill and upgrade their career. With the help of a series of extensive, interactive learning programs, provided and tailored with world-class faculties, accumulating latest technologies and services, Eduranz is building a virtual space for you to learn, grow, and enhance your career.

”

What our learners have to say

Prashant Gera • Software Development Manager at Amazon USA

"Eduranz is a wonderful platform to get industry level training in the courses they are offering."

Alfred Chrispanous • VP - Channel & Alliances at Huawei

"Eduranz did a great job training our employees for an upcoming Application Development project. The classes were very well paced and flexible for the crazy work schedule of our employees."

Gopal Karmokar • Business Development Manager at Schindler India

"I have taken Tableau Desktop and Server training with Eduranz. Team responsiveness and ownership was accountable. Instructor narration on the course front was understandable for scratch learners as well."

Rajeev Kathuria • West Head-Partner Management at Samsung

"The instructor was very good and prompt in responding to questions. Excellent virtual class experience. Good Work Eduranz!"

Ajay Anand • Associate Director at EY

"Eduranz is a great online platform to learn any new technologies and tools. I felt like Eduranz follows industry standards also the Instructors are industry-standard experts.."

What our learners have to say

Ajit Mohile • Director at Cyber Top Consulting

"I have opted for Cloud Computing certification training. The trainer was really good. Explains the doubts with great patience."

Rahul Pohankar • Senior Manager

"The Python course at Eduranz was better than any real-time classes I ever attended. The faculty was wonderful and always available. The classes were practical oriented and it has been a great learning experience."

Tom Van • Managing Director at TeQnovation Inc

"Well Designed Course with top Instructor from Industry for delivering the best learning experience."

Gaurav J • Vice President, Global Cloud at Deltek

"I had enrolled for Azure Master's course. I must say that the support team was very helpful right from counselling time to finish off the course. The course was very well structured and easy to understand."

Anil Sadaye • Channel Account Manager-India at Symantec Software

"Clean, simple and a fantastic learning resource. The courses are a great resource for personal development and continuous learning."
